

Event Format: The event will consist of 2 rounds Preliminaries and Finals.

Round 1:Preliminaries:

Format:Here you will have to enter the details of your team and answer a subjective question paper consisting of written puzzles. The first round will be of 1.5 hour duration.

Selection to finals:

Based on performance. Top 8 teams will be selected.

Round 2:Finals:

The shortlisted teams from the first round will enter into the finals, where they have to face the Big puzzles. This will include buzzer and a miniQuiz of a lot of short puzzles in a sort of rapid fire fashion.

Frequently Asked Questions :

What will be the size of the Team ?

A maximum of three per team. Individual participation is also allowed. However we advise you to team up , so that you can distribute the work.

Should the team be from the same College ?

Need not be. Exhibit is all about participation and interaction with students from various colleges.

Is it too technical? Do I need to be a super-duper Programmer?

Puzzle champ is all about cool puzzles. Puzzles will cover a wide range of topics and will test your understanding in logic, reasoning and mathematics. Programming Knowledge is beneficial but not necessary.

What should we bring for the event?

Basic stationary (I mean a pen!!!) is all that is needed. Calculators are not allowed for the first round. You can bring them for finals if you wish. Laptop is not required.

What is this Buzzer Round ?

It is basically a speed round , where the first to press the buzzer gets the chance to answer. It may also involve some fun non-technical questions.
